

Mining Patterns and Subgroups

Workshop: 16 – 19 November 2010, Leiden, the Netherlands

Scientific Organizers

- Matthijs van Leeuwen, Utrecht
- Arno Knobbe, Leiden
- Marvin Meeng, Leiden
- Stefan Wrobel, Bonn

Invited Speakers

- Geoff Webb, Melbourne
- Henrik Grosskreutz, Sankt Augustin

Topics

- Mining complex data
- Smart search heuristics
- Useful patterns
- Exceptional model mining
- Evaluation and validation
- Scalability
- ... and more

The Lorentz Center is an international center in the sciences. Its aim is to organize workshops for scientists in an atmosphere that fosters collaborative work, discussions and interactions. For registration see: www.lorentzcenter.nl

Mining for patterns in large amounts of data requires considerable effort, just like mining for rock or minerals from an open pit mine. Photo © 2010 Pgiarn / istockphoto
