

Audio Processing and Indexing

Final Project Deliverables

Due Friday June 3rd 2022

The deliverables for your Audio Processing and Indexing Project are:

- (1) A link to a zip file or github containing all the project related code, designs, etc. and a ReadMe-file with clear instructions on how to use/employ it. (Note: the link should be available/work to at least August 31st 2022).
- (2) A Final Technical Project Paper (pdf) (max 4-8 pages), *typically* consisting of:
 - Title of your project.
 - All the names of the authors, i.e., your team members.
 - Abstract.
 - Intro, problem description, novelty, related work (state-of-the-art, etc.), method design, implementation, etc., experiments, results, conclusions, discussion, references.
 - Please add at least 2 screenshots of your project in action.
 - NB Also add the links from item (1) link to project-code etc., to the pdf.

Every team-member should upload the pdf of the technical report to Brightspace.
