

Robotics Final Project Deliverables

Due Tuesday June 7th 2022

The three deliverables for your Final Robotics Project are:

- (1) A link to a short movie of a demo of your project, starting with the title and list of team members (max 60 seconds).
- (2) A link to a zip file or github containing all the project related code, designs, etc. and a ReadMe-file with clear instructions on how to use/employ it. (Note: the link should be available/work to at least August 31st 2022).
- (3) A technical report (pdf) describing your project (max 4 pages), typically consisting of:
 - Title of your project.
 - All the names of the authors, i.e., your team members.
 - Abstract.
 - Intro, novelty, related work (if any), design, implementation, etc., results, conclusions, discussion, references.
 - Please add at least 2 screenshots of your project in action.
 - NB Also add the links from item (1) video-link and item (2) link to project-code etc., to the pdf.

Every team-member should upload the pdf of the technical report to Brightspace.
