

# Bachelor Class 2015

## Poster Presentations

Erik Schultes  
LIACS & LUMC

# **Who**

- you
- your advisor
- your reader

# What

- present your proposed project as poster
- something like your contract:
  - Title of the project
  - Research question or problem to be investigated
  - Methodology & work plan
  - Deliverables of the project
  - Duration of the project

## **Why**

- project planning
- gaining experience in communication

## **Where**

- room B1, B2, or B3

# When

- 28 Januari: Introduction to poster making
- 11 Februari: Draft poster discussion / reviews in small groups
  - bring your poster on A4, 5x
- 25 Februari: Present posters in two rounds

## **How**

- Design, print, hang, present

## Title of the Research Study

## PEOPLE WHO DID THE STUDY

Logo

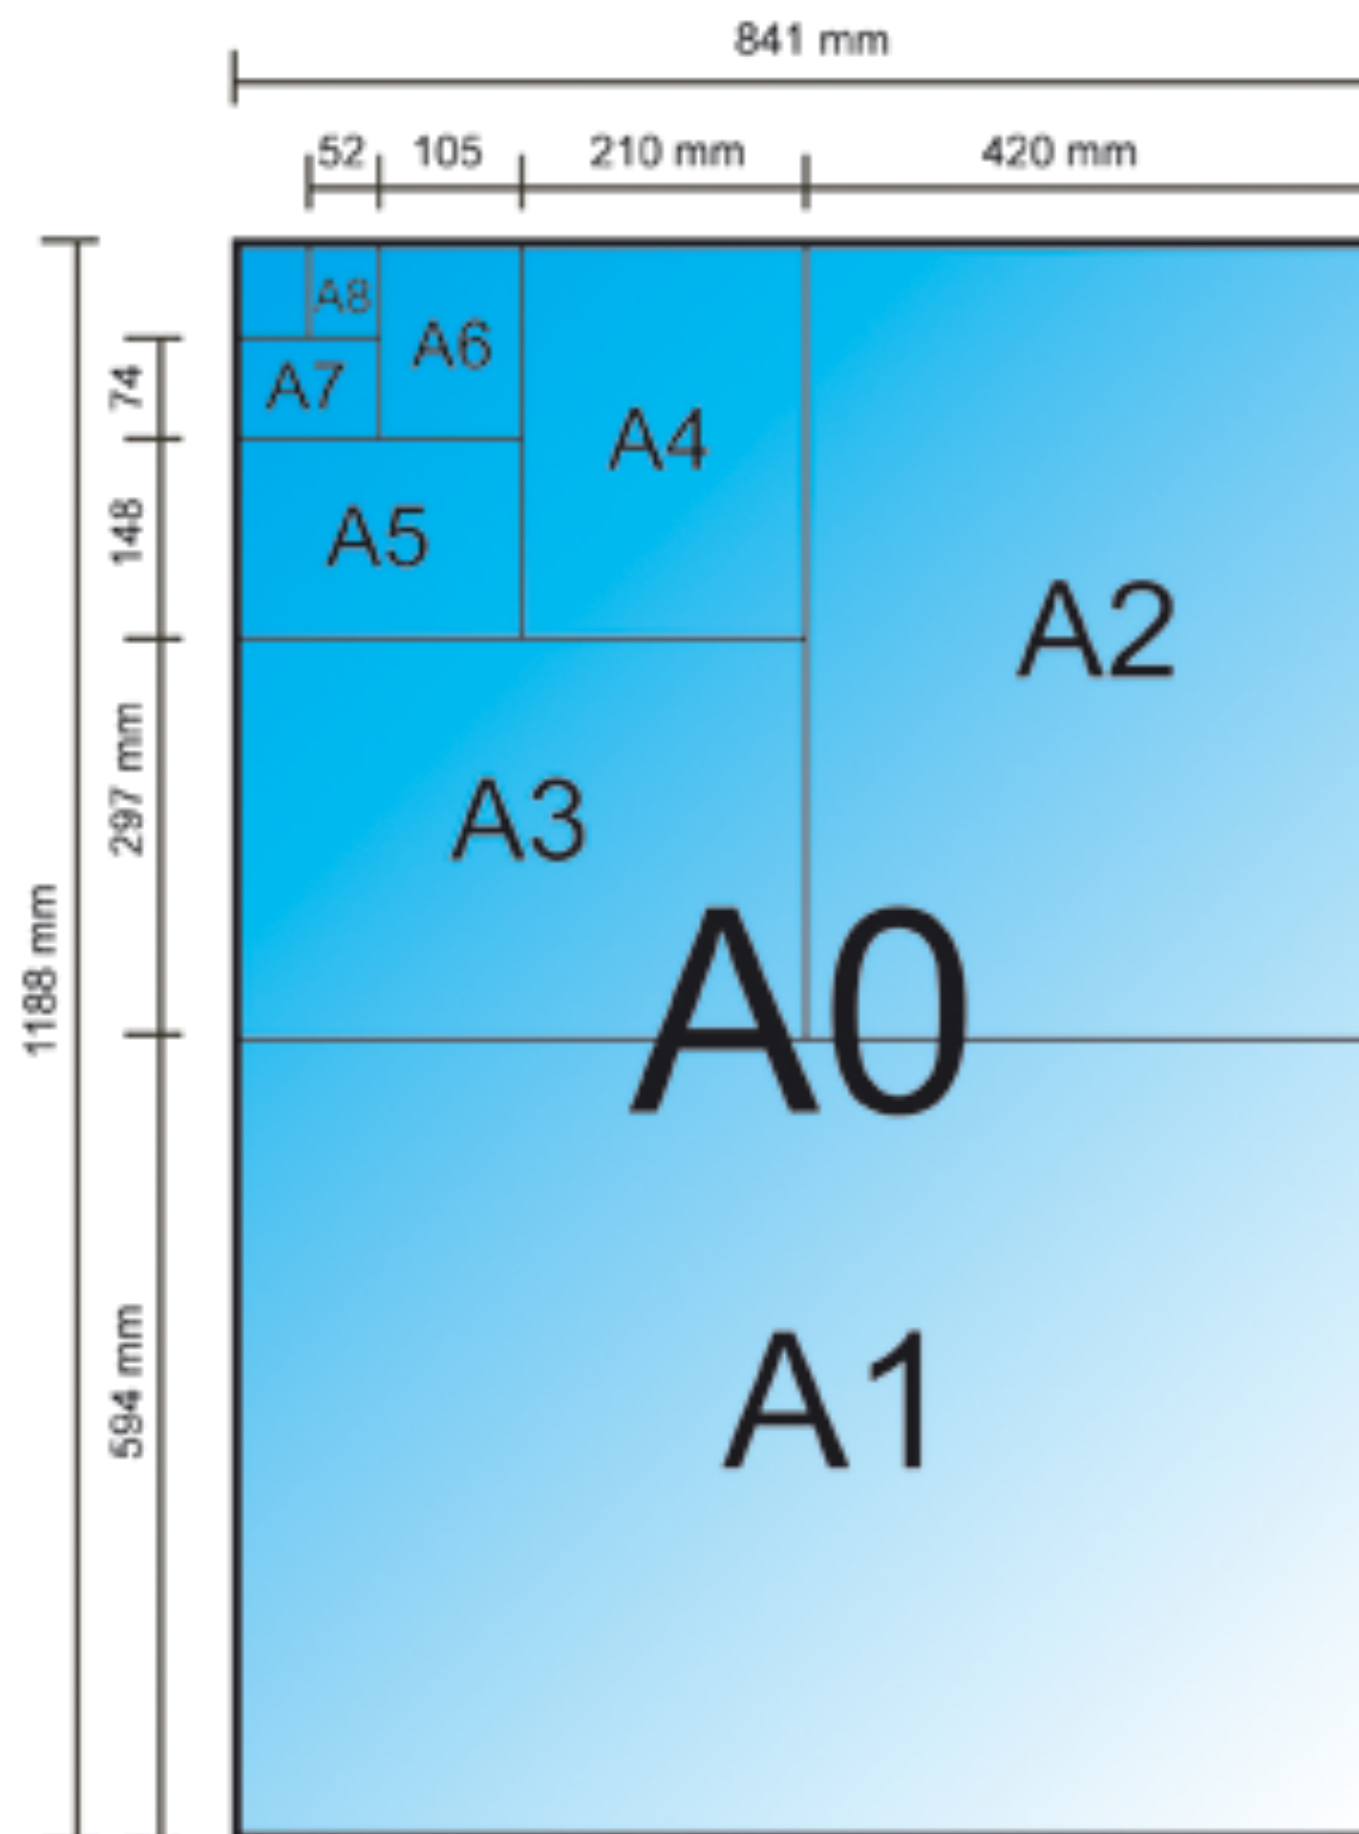

## Conclusions

We listen! Call us at 800-590-7150 if we can help in any way.

1. XXX  
XX
2. XXX  
XX
3. XXX  
XX
4. XXX  
XX

## **Printing Options**

- (1) Karin Spaans @ MultiCopy Leiden  
contact: [karin@leiden.multicopy.nl](mailto:karin@leiden.multicopy.nl)  
€ 32,50 (excluding tax) (€ 5,50 discount for one poster/per student)
- (2) Erik Deul @ <https://www.strw.leidenuniv.nl/local/posters.php>  
contact: [posters@strw.leidenuniv.nl](mailto:posters@strw.leidenuniv.nl)  
€35 (usually €50)
- (3) Department printer (A4 paper size)  
Free :-)

# **Some Issues in Scientific Communication**

## **Kinds of Communication**

- Informal: office, lunch, coffee
- Formal: lectures, seminars, conferences
- Private: email, comment lines, meetings, white papers
- Public: articles, books, talks, posters

## **Posters are a response to:**

- Information Overload
- Need for Networking

## Example poster session

### The World's Premier Conference on Computational Biology - ISMB 2014!

#### Thank you for attending ISMB 2014.

Please take a moment to complete the [conference evaluation survey](#).

ISMB 2014 Online Proceedings available at: <http://bioinformatics.oxfordjournals.org/content/30/12.toc>

Have a look at the conference [photo's](#)

See you next year in [Dublin](#),

#### Award Winners

Congratulations to all the [ISMB 2014 Award Winners](#)

#### About ISMB

The **Intelligent Systems for Molecular Biology** (ISMB) conference brings together computational biology researchers of every career stage from around the world. Hosted by the International Society for Computational Biology (ISCB), ISMB has grown over 22 years to become the world's largest bioinformatics/computational biology conference.

#### ISMB

- convenes an interdisciplinary group of scientists dedicated to the advancement of biological discovery through computation.
- educates scholars at all stages of their career
- showcases state-of-the-art advances in the dynamic fields of computational biology and bioinformatics
- is the forum for introducing new directions and for announcing technological breakthroughs

ISMB attracts top international scientists in the life sciences and offers a strong scientific program and the broadest scope of any international bioinformatics/computational biology. Topics of interest include sequence analysis, evolution and phylogeny, comparative genomics, protein structure, molecular and supramolecular dynamics, molecular evolution, gene regulation and transcriptomics, RNA biology, proteomics, systems biology, ontologies, databases and data integration, text mining and information extraction, and human health.

In addition, join us prior to ISMB on July 11 & 12 to participate in the Special Interest Group Meetings, Satellite Meetings, Student Council Symposium and Tutorials.

Attend ISMB July 13-15, 2014 to present your research, learn about the latest developments in the field, network with colleagues, and help shape the future of computational biology and bioinformatics!

ISMB 2014 appreciates the generous support of the following sponsors:

#### General Sponsors:

**Genentech**  
*A Member of the Roche Group*

**Biology Direct**

**Student Travel Fellow  
Sponsor:**

**b2q blast2**  
BIOSAM BIOINFO

**Akamai**

#### Featured ISMB 2014 Keynote Presenter:

**Michal Linial, PhD**

Director of The Sudarsky Center for Computational Biology  
Department of Biological Chemistry  
Institute of Life Sciences

## **Sunday, July 13, 2014**

Conference Registration (Level 200 – Hall C Foyer) 7:30 am – 6:30 pm

Art & Science Exhibition

Birds of a Feather Flock Together (BoFs)

Conference Opening and Welcome

Exhibition

Keynote Presentations

Paper Presentations (Highlights & Proceedings)

Poster Reception with Authors (Odd Numbered posters – 5:00 pm – 7:00)

Special Sessions

Technology Track Presentations

Workshop Track Presentations

## **Monday, July 14, 2014**

Conference Registration (Level 200 – Hall C Foyer) 7:30 am - 6:30 pm

ISCB and ISCB SC Student Council Open Business Meeting (12:45 - 2:00 pm - Room 313)

## CALL FOR POSTERS – ISMB 2014

**Poster Chair:** Yana Bromberg, Rutgers, The State University of New Jersey, USA

Submissions are closed as of March 14, 2014

The organizers of ISMB 2014 invite all interested participants and conference attendees to consider presenting a poster.

### Deadlines

Monday, November 18, 2013	Call for Posters Opens
Friday, March 14, 2014	Poster Submission Deadline
Friday, April 11, 2014	Poster Acceptance Notification

ISMB 2014 will bring together scientists from a wide range of disciplines, including molecular biology, biology, medicine, computer science, mathematics and statistics. We are soliciting high-quality research posters in any aspect of computational biology.

Posters are intended to convey a scientific result and are not advertisements for commercial software packages. There will be a separate space for Industry Posters in the exhibition area - to learn more about Industry Posters contact [steven@iscb.org](mailto:steven@iscb.org). A poster that is judged by the conference organizers to be an advertisement will be subject to removal without notice.

Posters submitted may cover any area of computational biology. We also encourage submission of purely experimental work and experimental posters should be submitted to the category (noted below) most accurately reflecting the area of this work and will be displayed accordingly. Posters must include original work that is unpublished or published after August 1, 2013.

Submitted posters will be reviewed by the poster selection committee and notification of acceptance will be provided to the corresponding author no later than **Friday, April 11, 2014**.

### Oral Poster Selection

A select number of accepted posters will receive an opportunity to complete a short oral presentation (approximately 8 minutes) during the conference parallel tracks in addition to their poster being displayed during the poster sessions. Posters nominated by at least one of the judges for oral presentation in the first round of review, will automatically be reviewed by additional members of the review panel. Posters amassing the largest number of recommendations will be selected for presentation. Late Posters will not be evaluated for oral poster presentation track. Additional details on presenting in OPT will be provided directly to the authors of the works selected for presentation.

### Poster Fees - Late Posters Only

Delegates are encouraged to submit posters to ISMB as part of the early Call for Posters submission process (closing March 14, 2014). Posters submitted after this date as part of the Call for Late Poster submission process (opening March 17, 2014) will pay a non-refundable Late Poster Fee of \$50 during the submission process.

# **Tips on Poster Design**

# Tip 1: Know the rules before you break the rules.

- title
- introduction
- methods
- results
- conclusion

The image shows a research poster template with a blue header and footer. The header contains the title 'Title of the Research Study', the authors 'PEOPLE WHO DID THE STUDY', and their affiliations 'UNIVERSITIES AND/OR HOSPITALS THEY ARE AFFILIATED WITH'. There are also 'Logo' placeholders on the left and right. The main body is divided into four columns: 'Introduction', 'Methods', 'Results', and 'Conclusions'. The 'Introduction' column contains detailed instructions for formatting and editing the poster. The 'Methods' column has a placeholder for 'Figure #1' labeled 'CHART or PICTURE'. The 'Results' column has a placeholder for 'Figure #2' showing a circle divided into four quadrants. The 'Conclusions' column has a placeholder for a 'Bibliography' with a numbered list. The footer includes the text 'printed by MegaPrint Inc. www.posteression.com'.

- title of the project
- research question or problem to be investigated
- methodology & work plan
- deliverables of the project
- duration of the project

# BioSemantics Knowledge Discovery Pipeline

## **Tip 2: Know your (target) audience**

- people like you ?
- from different disciplines ?
- non-technical ?
- its a small-world... are you networking ?

## **Tip 2: Know your (target) audience**

- people like you ?
- from different disciplines ?
- non-technical ?
- its a small-world... are you networking ?

**Tip 2.5: Don't be seduced by the powers of jargon**

## Tip 3: Consider the difference between science & art

- Doing research versus communicating the results.
- Telling a story versus technical documentation.
- Technically exhaustive versus artistic tention.
- Good communication is finding a cleaver balance

	<b>great scientific results</b>	<b>poor scientific results</b>
<b>great communication</b>		
<b>poor communication</b>		

**Tip 4: Surprisingly little of your hard work will be in the poster**

Consider handouts

**Tip 5: The poster tells a complete story,  
even though your work is never 'done'.**

Films are never finished, they are just released.  
- John Lasseter, Pixar

## **Tip 6: Which font ? What size ?**

**Tip 6: Which font ? What size ?**

**A nanopublication is the smallest unit of publishable information.**

**A nanopublication is the smallest unit of publishable information.**

*A nanopublication is the smallest unit of publishable information.*

**A nanopublication is the smallest unit of publishable information.**

## **Tip 6: Which font ? What size ?**

**A nanopublication is the smallest unit of publishable information.**

**A nanopublication is the smallest unit of publishable information.**

**A nanopublication is the smallest unit of publishable information.**

A nanopublication is the smallest unit of publishable information.

## **Tip 7: Colors... use don't abuse.**

White - the most important color of all

## **Tip 7: Colors... use don't abuse.**

White - the most important color of all

Blue on Black

Dont do it !

# Just for fun...

# Integrative Cell Models

## Bridging Microbial Physiology and Systems Biology

**Workshop: 26 – 30 January 2015, Leiden, The Netherlands**

**Scientific Organizers**

- Frank Bruggeman, VU Amsterdam
- Vincent Doms, U Edinburgh
- Witor Martins dos Santos, Wageningen UR
- Diego Oyazkov, Imperial College London
- Peter Swain, U Edinburgh
- Andrea Weide, U Edinburgh

**Invited Speakers**

- Tobias Bollmann, IST Austria
- Tom Ellis, Imperial College London
- Heide de Jong, INRIA Grenoble
- Jonathan Katz, School of Medicine Mount Sinai
- Edith Klapp, IZI Berlin
- Heinz Köpf, TU Darmstadt
- Juan Krüger, U Paris Odont
- Vincent Nieuwe, U Maastricht
- Tiziana Palamini, U Edinburgh
- Matthew Scott, U Warwick
- Luis Serrano, CIBG Barcelona
- Ben Stenfield, U Aberdeen
- Jörg Stelling, ETH Zurich
- Peter Swain, U Edinburgh
- Ben Teusink, VU Amsterdam

The workshop aims to provide a platform for the exchange of ideas and information between scientists working in the fields of microbial physiology and systems biology. The workshop will focus on the integration of experimental and computational approaches to study the function of microbial cells.

**Lorentz center**

[www.lorentzcenter.nl](http://www.lorentzcenter.nl)

**Lorentz center**

## Compact Objects as Astrophysical and Gravitational Probes

Workshop: 2 - 6 February 2015, Leiden, the Netherlands

**Scientific Organizers**

- Enrico Barausse, IAP Paris
- Tanura Bogdanovic, Georgia Tech
- Wouter Candelaro, IST Lisbon
- Paolo Pardi, Sapienza Rome & IST Lisbon
- Elena Maria Rossi, Leiden U

Workshop 2 will be a continuation of Workshop 1, which was held in Leiden in 2014. The main topic of the workshop is the role of compact objects as probes of the strong-field regime of gravity. The workshop will focus on the latest developments in the field of compact objects and their role as probes of gravity. The workshop will be held in Leiden, the Netherlands, from February 2 to 6, 2015.

www.lorentzcenter.nl

**Lorentz  
center**

# Training Course

## *Data Integration in the Life Sciences*

Workshop: 2 – 6 February 2015, Leiden, the Netherlands

**Scientific Organizers**

- Roel van Oort, U Amsterdam
- Jaap Mulder, Wageningen U
- Loeserik Wessels, NIO Amsterdam
- Hans Westerhoff, U Amsterdam

**Aim**

Integration of diverse data sets in predictive and computational models, to provide insight into the architecture and dynamics of complex biological systems

The Lorentz Center is an international center in the sciences. It organizes workshops for scientists to promote cross-fertilization of ideas. The international reputation for the organization can be maintained only by the highest scientific standards.

**Lorentz  
center**

**Lorentz center**

# Artefacts in X-ray Tomography

Workshop: 9 - 13 February 2015, Leiden, The Netherlands

Scientific Organizers:

- Jacob Salenborg, CWI / Leiden U / U Antwerp
- Francois De Carlo, Argonne National Lab
- Lidia Mancini, Elettra - Sincrotrone Trieste
- Jon Sijbers, U Antwerp

No abstracts or presentations in the workshop. The program is designed to maximize the interaction and discussion between participants. Abstracts and presentations are not required.

The workshop is organized by the Lorentz Center, a joint effort of the University of Leiden and the University of Antwerp.

Participating institutions:

     **Lorentz center**

[www.lorentzcenter.nl](http://www.lorentzcenter.nl)

**Lorentz center**

**Extracting Information from Weak Lensing:  
Small Scales=Big Problem?**

Workshop: 16 - 20 February 2015, Leiden, The Netherlands

**Scientific Organizers:**

- Kristin Heitmann, Argentine National Lab
- Catherine Heymans, U Edinburgh
- Peter Hoekstra, Leiden U
- Thomas Kitching, UCL London

**Topics:**

- Challenges for Cosmological Simulations
- Small-Scale Clustering with Baryon Feedback
- Mass Modelling and Perturbation Theory
- Signatures of New Physics
- Combining Cosmological Probes

**Lorentz center**
